

*The "plant" refers to the tie among strategy, sales, employment, and practices, whether it is a plant, company, or strategic business unit.

*Although exact are preferred, your answers may be approximate.

Section DM: Demographics					
DM01 Approximately how many total employees work for the plant?employees					
DM02 How many of these employees are production workers (direct and indirect)?workers					
DM03 Approximately how many total engineers are at this plant?engineers					
DM04 Approximately what percent of the direct production workers is contract or temporary?% of workers					
DM05 How many product lines or product families does the plant produce?product lines or families					
DM06 What percent of plant sales comes from the plant's largest selling product line?% of sales					
DM07 Over the last two years, what has been the utilization rate for machinery/equipment?% utilization rate					
DM08 What is the approximate average age of the plant's production equipment?years					
DM09 On average, over the last two years, about what percent of annual sales has been invested in new manufacturing equipment at this plant?% of annual sales					
DM10 What percent of the plant ownership is international?%					
DM11 What percent of plant sales is currently from products that have been introduced in the last two years?%					
DM12 What were the plant's sales last year? (State currency units.)total sales					
DM13 What percent of the plant's sales is generated from exports?% export sales					
DM14 About what percent of the plant's sales is the total manufacturing cost?% of sales					
DM15About what percent of the plant's total manufacturing cost is for labor?% of cost					
DM16 About what percent of the plant's total manufacturing cost is for material?% of cost					
DM17 What percent of your plant material costs are purchased from international sources?%					
DM18 (A, B & C) What percent of the machines in the plant are grouped by machine type (e.g., all lathes together)% grouped by product or product families (e.g., manufacturing cells% grouped by assembly line%					

Section CG. Competitive Goal Measurement

Given the following goals, rate the extent that the plant is evaluated by top management? (Totals to 100 points)?

Overall Competitive Goal	Weight percentage
CG01.A Cost (Price)	Points
CG01.B Quality (conformance to specifications)	Points
CG01.C Delivery timeliness	Points
CG01.D Product Variety/Volume	Points
CG01.E New Product Design/Innovation	Points
CG01.F Environment/Safety	Points
Total (Sums to 100 Points)	100 Points
